Kula Bio®

Moving the Factory to the Field

Reliable Results

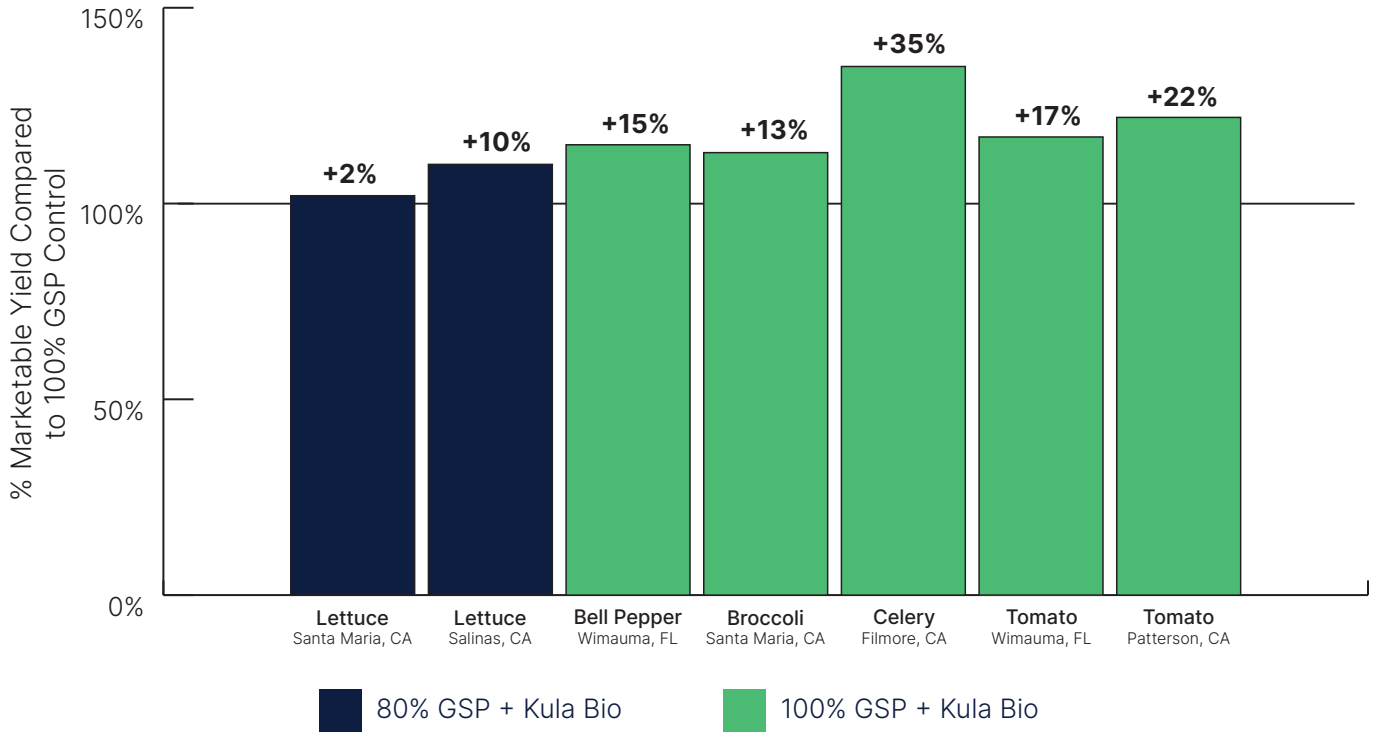

We believe in collecting representative data, which is why we've tested our products on various crops in multiple states, soil types, and growing conditions.

Compatible with standard irrigation equipment, our products fit seamlessly into your existing practices.

Our best-in-class quality standards ensure consistent efficacy.

- Kula Bio® uses *Xanthobacter autotrophicus* in our products — a proven nitrogen-fixing species of bacteria
- Our products can be used to reduce synthetic nitrogen without negatively impacting productivity
- When used in addition to the standard fertility program, this microbe can give you a boost

Kula Bio Product Efficacy
